*By-laws to regulate the construction of buildings under section 189 (3), 190 and 199 (i) of the Punjab Municipal Act VI of 1911, as extended to Himachal Pradesh.*

**Building Bye-laws of the Notified Area Committee, Narkanda**

- (1) (i) Every person intending to erect or re-erect any building shall give notice of such intention in writing to the Secretary of the Committee in Form 'A' appended to these bye-laws, and shall at the same time submit—
  - (a) a site plan of the land on which it is intended to erect or re-erect the building;
  - (b) a plan of the building which it is proposed to erect or re-erect; and
  - (c) the specifications detailed in form 'B' appended to these bye-laws.(ii) Copies of forms A and B may be obtained at the Municipal office.
- (2) The site plan must be drawn to a scale of not less than one sixteenth of an inch to the foot, must be submitted in duplicate, and must show —
  - (a) the direction of the north point;
  - (b) the boundaries of the site;
  - (c) the position of the site in relation to neighbouring streets and the level of the site in relation to the streets, if any, on which it abuts;
  - (d) the position of the proposed building in relation to (i) the boundaries of the site, and (ii) all buildings and premises contiguous to the boundaries of the site;
  - (e) the name, if any, and width of all streets on which the site abuts;
  - (f) the scale to which the plan is drawn.
3. The building plan must be drawn to a scale of not less than one-eighth of an inch to the foot, must be submitted in duplicate, and must show —
  - (a) the plan of the ground-floor and of every additional floor;
  - (b) the position and dimensions of all projections beyond the main walls of the building;
  - (c) the position of all proposed drains, urinals and cess-pools;
  - (d) the level and width of the foundations, and the level of the lowest floor with reference to the level of the Centre of the street on which the front of the proposed building is to abut;
- (e) the scale of which the plan is drawn.
4. If any person intends to erect or re-erect any building on a site adjacent to a public street under the control of the Public Works Department of Government or the another local authority, such person shall submit the plans required under the provisions of bye-laws 1, 2 and 3 in triplicate and one complete set of plans shall on receipt forthwith be forwarded by the Secretary to the Executive Engineer or local authority concerned for information.
5. The Committee may require any person who has submitted an application to erect or re-erect any building to submit, in addition to the plans and specifications required by bye-law 1, elevations and sections of the proposed building, together with full specifications as to the materials and methods of constructions to be used for external walls, partition wall, foundation, roofs, ceiling, floors, staircases, fire places and chimneys.
6. No building shall be roofed with straw or other easily inflammable material.
7. No fire place to be used as such shall be constructed unless the floor beneath it and around it for a width of three feet has been rendered fire-proof by being covered with earthenware tiles or concrete or some other fire-proof substance.
8. Every fire-place shall before use as such be provided with chimney with an iron, brick or stone flue to afford free means of flow of smoke.
9. No flue shall be so constructed as to pass through or be within one foot of any wall or structure made of inflammable material except at its point of exit, at which it must be rendered safe by a casing of unflammable material at least one foot thick.
10. In no building shall any open sewer or drain pass through any room used or intended to be used as a living or sleeping room.
11. No drain shall be constructed within the thickness of any wall of any building.
12. All down pipes for the disposal of roof-drainage shall be of iron.
13. Masonry latrines and privies which are not water borne shall be so constructed that all solids fall directly into a movable receptacle of metal or pottery fitting close beneath the seat.
14. A drain shall be provided for every latrine, privy, urinal, bath room and cooking place, and such drain shall be constructed of glazed pipes, or other impervious material and connect the floor of the latrine, privy, urinal, bathroom or cooking place with —
  - (a) a municipal masonry, drain or,
  - (b) a private cesspool constructed as hereinafter prescribed.

15. The floor of every latrine, privy and urinal —
- shall be of masonry or of tiles or of cement;
  - shall be in every part at a height of not less than three inches above the level of the surface of the ground adjoining the latrine, privy or urinal; and
  - shall slope to the drain in such a way that liquid will flow off quickly.
16. In every urinal the walls to a height of three feet above the floor and in every latrine and privy both the seat and the wall to a height of three feet above the floor, shall be of metal or masonry, provided that in the case of a water-closet of European type the seat may be of wood.
17. Every latrine, privy or urinal shall be provided with adequate ventilation which, in the case of a latrine, privy or urinal situated in or near a building shall be effected by an opening not less than one foot square in area in one of the wall as near the top of the wall as may be practicable and communicate directly with the open air.
18. Every latrine, privy, shall be so constructed that —
- there shall be adequate access thereto for purpose of cleaning;
  - when the outer door thereof is open, the seats shall not be visible from the street or other public place.
19. No privy other than a water-closet of European type shall be placed on any upper floor of a building unless movable receptacles are provided.
20. No person shall construct a private cesspool —
- unless there is no municipal drain within 100 feet of the premises for which it is required;
  - except within the boundaries of private land;
  - except a cesspool of masonry with an iron or wooden movable covering;
  - unless adequate access is provided thereto for the purpose of cleaning it; and
  - within 100 feet of any inhabited building.
21. No portion of any building in a street in which line of frontage has been fixed by a resolution of the committee shall be built to project beyond such line of frontage.
22. No person shall construct any room to be used as a living or sleeping room within superficial floor area of less than 100 square feet.
23. No person shall construct any room to be used as a living or sleeping room unless it is provided, for the purpose of light and ventilation, with one or more windows doors or other apertures of a total area equal to not less than one-tenth.
24. No person shall construct any building of more than five stories including the ground-floor and no person shall construct any building of more than two such storeys unless the outer walls of such building are made of brick, stone or reinforced concrete.
25. (1) In the case of buildings of more than one storey including the ground-floor the height of each storey shall be not less than —
- |        |                              |
|--------|------------------------------|
| 8 feet | in the case of ground floor; |
| 8 "    | " " " first storey;          |
| 8 "    | " " " second storey;         |
| 8 "    | " " " third storey;          |
| 7 "    | " " " fourth storey.         |
- (2) Any horizontal division of a building so constructed as to be capable of use as a living or sleeping room shall be considered to be a storey for the purpose of this bye-law and of bye-law 27 even though such division does not extend over the whole depth or width of such building.
- (3) For the purpose of this bye-law the height of storey shall be reckoned as follows:—
- in the case of single storeyed buildings and of the uppermost storey of buildings of more than one storey, from the level of the upper surface of the floor at any point along the walls within the building to the level of the underside of the tie-beam, or if there is no tie-beam, to the meeting point of the outside walls and roof;
  - in the case of any storey except the uppermost storey of buildings of more than one storey, from the level of the upper surface of the floor to the level of the upper side of the beams or joints on which the floor above rests, or if the floor above is ceiled, to the level of the under side of the ceiling.
26. (1) No person shall construct any building so that any part of any storey of a building above the ground floor, is more than 50 feet from some staircase leading to the ground floor.
- (2) No person shall construct any staircase of a width of less than 2½ feet or with steps having a rise of more than nine inches or a breadth of less than 10 inches measured from the vertical face of the rise.
